

Po-Sheng Cheng

Master of Industrial Design, Rhode Island School of Design (RISD), Jun. 2026

401-432-5576

bencer@outlook.com

Portfolio: <https://bencer3283.github.io/art/>

B.Sc. Bio-Mechatronics Engineering & B.A Economics,

National Taiwan University (NTU), Jan 2023

Notable Skills

- Coding: JavaScript (Express, React, MongoDB, Node.js), HTML (CSS), Mobile App (Flutter), C/C++, Python (PyTorch), Git
- Design: Figma (Wireframing), Adobe Suite, Rhino, Keyshot

Experiences

Product Development Apprentice, Google, Jun. - Sep. 2024

Taipei, Taiwan

- Led a team of 5 to design a Hardware as a Service platform for managing lost items in public facilities. Created multiple app prototypes to drive the scope from a single product to a holistic platform.
- Using React, I built and deployed web apps that interface with several public HTTP service like Notion API and Imgur.

E-Lab Research Assistant, RISD Industrial Design, Feb. 2024 -

Providence, RI

- Fostered literacy of technology in RISD by working with departmental leaders to host workshops in topics like RESTful API, Node.js backend and mobile app development.

Electro-mechanical Engineering Intern, Logitech, Feb. - Jun. 2022

Hsinchu, Taiwan

- Created a brand new breed of keyboard technology by conducting quantitative user research with 50 interviewees and innovating a microcontroller-based prototype.

(Publication) TeleSHift: Telexisting TUI for Physical Collaboration & Interaction

- Designed and prototyped an innovating 3D tangible user interface that was awarded at 2022 ACM Ubicomp conference.

College Student Researcher, NTU, Jul. 2021 - Feb. 2022

Taipei, Taiwan

- Built a one-stop, from-acquire-to-analysis solution to improve the user experience of scientific spectral measurement.
- Awarded the **2021 Technology Innovation Award** by CCMS, NTU and **College Student Research Creativity Award** by National Science and Technology Council of Taiwan with this project.

Projects

PageMate smart bookmark

- Built the physical prototype and web service of a smart bookmark that can display reading progress of the user's ebooks.
- Using Figma to create a demo experience that can be updated in real time using my Node.js web service.

My online photography gallery

- Designed, built and deployed an online web app that showcases my photography works with a responsive, sophisticated user interface. The app interfaces with Google Drive API to automatically load contents.
