My Online Photography Gallery

Built with: Flutter/Dart, Netlify,
Google Drive API
[Design system](#)
[GitHub Repo](#)

Nexus

intelligent lost item recognition and management platform

Built with: Flutter/Dart, React,
Figma, Linux on Raspberry Pi
[Figma prototype](#)
[GitHub Repo](#)

PageMate

a smart bookmark that bridges physical and digital books

Built with: Node.js (Express), Figma

MITM Router

an interactive WI-FI router

Raspberry Pi 5 running Linux networking stack
ESP32 and RP2040 microcontroller
7+ peripheral sensors, actuators or ICs

Haptic Belt

using haptic feedback to provide navigation for visually impaired people

Rigid-flex PCB design with Altium Designer
Power integrity analysis
STM32 firmware programming ([Github Repo](#))
RF circuit design

PageMate

a smart bookmark that bridges physical and digital books

ESP32 microcontroller
Extensive use of I2C
Custom IC for touch gesture sensing
